|                                                                                                                              |     |
|------------------------------------------------------------------------------------------------------------------------------|-----|
| Neubrunn T. : On Certain Type of generalized random Variables .....                                                          | 1   |
| Wawruch A. : On the Isomorphism of regular Tournaments .....                                                                 | 7   |
| Šoltés P. : Nonlinear Differential Equation $y''' + q/x/y' + r/x/g/y =$<br>$= f/x/$ .....                                    | 13  |
| Plesník J., Znáš Š. : Strongly geodetic directed Graphs .....                                                                | 29  |
| Haviar A. : On a generalized distributivity in modular Lattices .....                                                        | 35  |
| Pal M. : On certain Transformations of Sets in $R_N$ .....                                                                   | 43  |
| Riečan B. : Abstract Entropy .....                                                                                           | 55  |
| Moravský L. : Einige Eigenschaften der Lösungen ohne Nullstellen der<br>linearen Differentialgleichung dritter Ordnung ..... | 69  |
| Kostyrko P. : On some Classes of sets of natural Numbers .....                                                               | 85  |
| Čapek P. : A Note on Topologies Compatible with the Ordering .....                                                           | 91  |
| Pócs J. : Translations and Endomorphisms in Universal Algebras .....                                                         | 95  |
| М о з е р Я . : Одна оценка функции $S/t/$ в теории дзета-функ-<br>ции Римана.....                                           | 101 |
| М о з е р Я . : Некоторые следствия из гипотезы Римана ....                                                                  | 111 |
