OBSAH

<i>Мозер, Я.</i> : О распределении корней уравнений $Z(t) = 0, Z'(t) = 0$ в теории дзета-функций Римана . . . . .	7
<i>Мозер, Я.</i> : Кубические корреляционные формулы в теории дзета-функций Римана . . . . .	21
<i>Мозер, Я.</i> : Дзета-функция Римана и уравнения Эйнштейно-Фридмана ИИ . . . . .	49
<i>Chakrabarti, S.—Lahiri, B. K.</i> : Transformations of sets in topological group . . . . .	75
<i>Piotrowski, Z.</i> : A survey of results concerning generalized continuity on topological spaces . . . . .	91
<i>Snoha, L.</i> : Charakterization of potentially minimal periodic orbits of continuous mappings of an interval . . . . .	111
<i>Mazhar, S. M.</i> : On the degree of approximation of functions of generalized bounded variation . . . . .	125
<i>Kundu, S. K.—Bhaumik, K. N.</i> : On $d$ -variation and $d$ -semivariation of set functions . . . . .	131
<i>Khalil, R.—Deeb, W.</i> : $\Phi$ -summing operators in Banach spaces. . . . .	141
<i>Menkyna, R.</i> : The maximal additive and multiplicative families for functions with closed graph . . . . .	149
<i>Michalski, W.</i> : Remark on the formula for $m$ -th derivate of the composition of two Banach-valued functions . . . . .	155
<i>Holá, L.</i> : Some conditions that imply continuity of almost continuous multifunctios . . . . .	159
<i>Holá, L.</i> : A remark on the theory of sets of distances . . . . .	167
<i>Jaroš, J.</i> : Bounded oscillations of higher-order functional differential inequalities induced by forcing functions . . . . .	177
<i>Jaroš, J.</i> : On oscillation of certain class of solutions of retarded differential inequalities . . . . .	183
<i>Čerňanová, V.</i> : On the boundary value problem with matrix parameter . . . . .	195
<i>Bodjanová, S.</i> : Measures of fuzziness of fuzzy partitions . . . . .	201
<i>Чесалин, В.</i> : О задаче коши для некоторых дифференциально-операторных уравнений высших порядков . . . . .	223
<i>Садыбраев, Ф. Ж.</i> : Замечание о методе нижних и верхних функций . . . . .	229
<i>Humke, P. D.—Šalát, T.</i> : Remarks on strong and symmetric differentiability of real functions . . . . .	235
<i>Kostyrko, P.</i> : On a local from of a functional equation with the harmonic mean . . . . .	243
<i>Maličký, P.</i> : Random variables with values in a vector lattice (Mean value and conditional mean value operators) . . . . .	249
<i>Huía, A.—Dančo, J.</i> : The construction of explicit one-step hybrid methods . . . . .	265
<i>Hassan, M.</i> : On the $p$ -center and $p$ -median problems in cactus graphs . . . . .	275
<i>Degoli, L.</i> : Un nouveau théoreme sur la variété de Veronese . . . . .	291
<i>Boda, E.—Solčan, Š.</i> : On the multiplicity of $(X_1^m, X_2^m, X_1^+X_2^+)$ . . . . .	297
<b>Didaktika matematiky</b>	
<i>Benešová, M.—Šalát, T.</i> : On proofs of existence of the $m$ -th root and the logarithm of positive numbers . . . . .	303
