## COMMENTATIONES MATHEMATICAE UNIVERSITATIS CAROLINAE

## C O N T E N T S

Volume 11 (1970)

| AUTHOR - TITLE  | No. | PAGE    |
|---|-----|---------|
| ADÁMEK J.: Some generalizations of the notions limit and colimit                            | 4   | 823-827 |
| BABUŠKA I.: Computation of derivatives in the finite element method                         | 3   | 545-558 |
| " Approximation by Hill functions   | 4   | 787-811 |
| BICAN L.: Factor-splitting abelian groups of rank two                                       | 1   | 1-8     |
| BRUNOVSKÝ P.: On one-parameter families of diffeomorphisms                                  | 3   | 559-582 |
| BURÝŠEK S.: On spectra of nonlinear operators   | 4   | 727-743 |
| CASSENS P., REGAN F.: On generalized Lambert summability                                    | 4   | 829-839 |
| ČIHÁK P.: On an exposed element of a set of doubly stochastic rectangular matrices          | 1   | 99-113  |
| " Remarks on doubly substochastic rectangular matrices                                      | 2   | 385-391 |
| " Comparability of Borel probability measures on Euclidean line                             | 4   | 769-785 |
| DANEŠ J.: Generalized concentrative mappings and their fixed points                         | 1   | 115-136 |
| " Fixed point theorems, Nemyckii and Uryson operators, and continuity of nonlinear mappings | 3   | 481-500 |
| DEMUTH O.: Teoremy o srednem značenii dlja konstruktivnogo integrala Lebega                 | 2   | 249-269 |
| " O predstavivosti konstruktivnych funkcij slabo ograničenoj variacii                       | 3   | 421-434 |
| " Ob integrirujemosti proizvodnyh ot konstruktivnych funkcij                                | 4   | 667-691 |
| " Neobchodimoje i dostatočnoje usiovije absoljutnoj nepreryvnosti konstruktivnych funkcij   | 4   | 705-726 |

| <u>AUTHOR-TITLE</u>   | <u>No.</u> | <u>PAGE</u> |
|---|------------|-------------|
| DIVIŠ B., NOVÁK B.: A remark on the theory of Diophantine approximations  | 3          | 589-592     |
| FUČÍK S.: Fredholm alternative for nonlinear operators in Banach spaces and its applications to the differential and integral equations | 2          | 271-284     |
| " Remarks on monotone operators   | 3          | 435-448     |
| GVOZDKOVÁ P.: On continuity of linear transformations commuting with generalized scalar operators                                       | 3          | 583-588     |
| HAVLÍČEK K., TIETZE J.: Zur Geometrie der endlichen Ebene der Ordnung $n = 4$   | 3          | 593-594     |
| HUŠEK M.: The Hewitt realcompactification of a product  | 2          | 393-395     |
| JEŽEK J.: An embedding of groupoids and monomorphisms into simple groupoids   | 1          | 91-98       |
| " On atoms in lattices of primitive classes   | 3          | 515-532     |
| KAČUR J.: On existence of the weak solution for non-linear partial differential equations of elliptic type                              | 1          | 137-181     |
| KOLÁŘ J.: Geometric objects of submanifolds of a space with fundamental Lie pseudogroup   | 2          | 227-234     |
| KOLOMÝ J.: Some remarks on nonlinear functionals  | 4          | 693-704     |
| KOMAN M.: On nonplanar graphs with the minimum number of vertices and a given girth   | 1          | 9-17        |
| KOUBEK V., REITERMAN J.: On the category of filters   | 1          | 19-29       |
| KUČERA A.: Slabaja schodimosť v konstruktívnej matematike   | 2          | 285-308     |
| KUČERA M.: Fredholm alternative for nonlinear operators   | 2          | 337-363     |
| KURZWEIL J.: Invariant manifolds I.   | 2          | 309-336     |
| MAREK I.: An announcement concerning my preliminary communication "A class of Kreiss-type uniformly bounded systems of operators"       | 1          | 183         |
| MŮNZOVÁ M.: Transformations determining uniquely a monoid   | 4          | 595-618     |
| NAJZAR K.: On the method of least squares of finding eigenvalues and eigenfunctions of some symmetric operators, II.                    | 3          | 449-462     |
| Error-estimates for the method of least squares of finding eigenvalues and eigenfunctions   | 3          | 463-479     |

| <u>AUTHOR-TITLE</u>   | <u>No.</u> | <u>PAGE</u> |
|---|------------|-------------|
| NAJZAR K.: Stability of the method of least squares for finding the eigenvalues of a symmetric operator       | 4          | 641-655     |
| NEBESKÝ L.: Graphic algebras  | 3          | 533-544     |
| NEŠETRIL J.: Graphs with small assymetries  | 3          | 403-419     |
| NOVÁK B.: Mean value theorems in the theory of lattice points with weight, II.                                | 1          | 53-81       |
