COMMENTATIONES MATHEMATICAE UNIVERSITATIS CAROLINAE  
 Vol. 28 (1987)

CONTENTS

| Author/s   | Title | No | Page |
|--|-------|----|------|
| ALAS O.T.: On the number of compact subsets in topological groups  |       | 3  | 565  |
| BAIR J.: Sur la décomposition d'un espace vectoriel en la somme d'un convexe et d'un sono-espace                                 |       | 2  | 345  |
| BALCAR B., P. KALÁŠEK, Scott W. WILLIAMS: On the multiple Birkhoff recurrence theorem in dynamics                                |       | 4  | 607  |
| BANAŚ J., J. RIVERO: Remarks concerning J. Witte's theorem and its applications  |       | 1  | 23   |
| BERAN L.: Distributivity in finitely generated orthomodular lattices   |       | 3  | 433  |
| BIRÓ B.: Isomorphism does not imply lower base-isomorphism for non-regular or non-locally finite-dimensional cylindric algebras  |       | 2  | 221  |
| BREGMAN Ju.H.: Some factorization theorems for paracompact $\mathfrak{G}$ -spaces  |       | 2  | 211  |
| CHABROWSKI J.H.: On the Dirichlet problem for a degenerate elliptic equation   |       | 1  | 141  |
| CIPRA T., I. MOTYKOVÁ: Study on Kalman filter in time series analysis  |       | 3  | 549  |
| COMER S.D.: Dimension stable posets  |       | 1  | 127  |
| CORNISH W.H. - see NOOR A.S.A.   |       |    |      |
| ČUDA K.: A contribution to topology in AST: compactness  |       | 1  | 43   |
| ČUDA K., A. TZOUVARAS: Endomorphic cuts and tails  |       | 2  | 241  |
| ČUDA K., B. VOJTAŠKOVÁ: Minimal monads   |       | 4  | 691  |
| DANEČEK J. - see STARÁ J.  |       |    |      |
| DEMUTH O.: A notion of semigenericity  |       | 1  | 71   |
| DEMUTH O., A. KUČERA: Remarks on 1-genericity, semigenericity and related concepts   |       | 1  | 85   |
| DIMOV G.D., R. ISLER, G. TIRONI: On functions preserving almost radiality and their relations to radial and pseudo-radial spaces |       | 4  | 751  |
| DOUWEN E.K. van: Closed copies of the rationals  |       | 1  | 137  |
| DRÁPAL A., T. KEPKA: Parity of orthogonal automorphisms  |       | 2  | 251  |
| DRÁPAL A., T. KEPKA: Parity of orthogonal permutations   |       | 3  | 427  |
| FABIAN M., D. PREISS: A generalization of the interior mapping theorem of Clarke and Pourciau                                    |       | 2  | 311  |

| Author/s                               | Title  | No | Page |
|--|--|----|------|
| FONDA A., F. ZANOLIN:                  | Periodic solutions to second order differential equations of Lienard type with jumping nonlinearities  | 1  | 33   |
| FROLÍK Z.:                             | A note on countably determined and distinguishable sets  | 2  | 301  |
| FUCHS M.:                              | Everywhere regularity theorems for mappings which minimize $p$ -energy                                 | 4  | 673  |
| GÓRNICKI J.:                           | Uniformly normal structure and fixed points of uniformly Lipschitzian mappings                         | 3  | 481  |
| GRECO C.:                              | Remarks on periodic solutions, with prescribed energy, for singular Hamiltonian systems                | 4  | 661  |
| HÁJEK P.:                              | Partial conservativity revisited   | 4  | 679  |
| HAJNAL A., I. JUHÁSZ, L. SOUKUP:       | On saturated almost disjoint families  | 4  | 629  |
| HAMHALTER J.:                          | On weakly uniformly rotund spaces  | 1  | 1    |
| HÉBERT M.:                             | On the reflective hull problem   | 4  | 603  |
| HEJMÁN J.:                             | On analytical dimension of rings of bounded uniformly continuous functions                             | 2  | 325  |
| HETZER G.:                             | Forced periodic oscillations in the climate system via an energy balance model                         | 4  | 593  |
| HORÁK K., MÜLLER V.:                   | On the structure of commuting isometries   | 1  | 165  |
| ISLÉR R. - see DIMOV G.D.              |  |    |      |
